DETAILED ACTION

- 1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on April 5, 2006 has been entered.
- 2. Claims 1 and 66 have been amended, and claims 1-6, 9, and 59-71 are now pending and under consideration.
- 3. It is noted that provisional application 60/210,988 does not disclose the invention of the instant claims; for example, the '988 application does not disclose the use of "white light, with the proviso that the white light is not evanescent wave light."

 Accordingly, the instant application is not entitled to the benefit of the filing date of the provisional application.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-6, 9, and 59-71 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably

Art Unit: 1634

convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

Applicants have amended claim 1 so as to include the limitation "using white light, with the proviso that the white light is not evanescent wave light." The originally filed specification does not provide basis for this limitation. It is noted that the specification refers to methods that "use illumination with non-evanescent wave light" (see page 11, lines 8-9), and that the specification discloses particles that exhibit certain properties when illuminated with white light (see page 5, lines 22-26, and page 12, lines 21-23). However, the specification does not disclose methods "using white light, with the proviso that the white light is not evanescent wave light." It is noted that Applicants' response refers only to page 5, line 24 as providing basis for the amendment; however, this section of the specification describes properties of particles when illuminated by white light – Applicants' have not identified any basis for methods employing the type of light now required by the claims. Accordingly, Applicants' amendment introduces new matter.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Diana B. Johannsen whose telephone number is 571/272-0744. The examiner can normally be reached on Monday and Thursday, 7:30 am-4:00 pm.

Application/Control Number: 09/880,732

Art Unit: 1634

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ram Shukla can be reached at 571/272-0735. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
